## Oregon Fruits – Preliminary Estimates

The 2011 Oregon Apple crop is expected to decrease 17 percent from 2010 with 100 million pounds. If realized, it would be the smallest crop since 1968. Washington estimates production to decrease 3 percent to 5.4 billion pounds. Nationally, a 2 percent increase in apple production is expected. Bartlett pear tonnage is expected to increase 4 percent in both Oregon and Washington. Tonnage for other pears is expected to increase in Oregon, California, and Washington. All pears production in Oregon is estimated to be up 9 percent from 2010 with 209,000 tons. Nationally, pear production is also up 9 percent. Oregon and Washington are estimating larger prune and plum crops for 2011. Nationally, production is expected to increase 8 percent. Oregon grape production is expected to increase 22 percent from 2010.

Fruit Production, 2007-2010 and forecasted August 1, 2011

State	Total production				
	2007	2008	2009	2010	2011 Forecast
